# TOUCHLESS

The Sigma10 square and Sigma80 square actuator plates activate the toilet flush easily and reliably with a simple wave of the hand. This keeps the actuator plate clean and hygienic all the time.

# GEBERIT SIGMA**10 ROUND**
# **TOUCHLESS**

**Simple, hygienic operation.** A round window with accent ring for the IR sensor makes the touchless Sigma10 into a hygienic solution that's perfect for public or semi-public restrooms. Sigma10 actuator plates are available in a wide range of colors and finishes.

- Water-saving dual flush.
- Touchless flush actuation.
- Hard-wired or battery operation.
- Sensor-controlled switch-on function.
- Contact your local Geberit sales representative for manual or vandal resistant options.
- Compatible with Geberit 2×6 in-wall systems.
- Matching urinal actuator available.

# GEBERIT
# **DESIGN FAMILY**

**Seamless design.** Toilet and urinal flush control actuation featuring a coordinated design: the result is a single design thread running through the whole bathroom. The flush actuations for urinals, which match the actuator plates for toilets, can either be actuated by hand (pneumatic) or via touchless technology (electronic, by means of infrared detection).

GEBERIT SYSTEMS
SIGMA AND OMEGA

# FOR **ANY APPLICATION**

**So that everything matches:** Used in combination with the matching in-wall tank, Geberit Sigma flush plates cover a wide variety of design styles and user preferences. The Geberit Omega system with matching plates offers great flexibility, especially in prewall installations. Both flushing systems offer tool-free maintenance and guaranteed spare parts availability for 50 years.

Only Geberit offers the widest selection of both flush plates and reliable systems for installation of sanitary equipment behind the wall. And now that we've divided our plates and systems into two families with easy-to-remember names – Sigma and Omega – it's easier than ever to match the right flush plate with your preferred installation system.

44-1/8" - 49-3/4"

- Flexible construction height
- Front actuation
- Toilet seat height adjustable from 15 to 19 inches
- Suitable for Geberit remote flush actuation

## Geberit Sigma concealed system

32-1/4" - 39-1/4"

- Flexible construction height
- Front or top actuation
- Particularly small actuator plates
- Suitable for Geberit remote flush actuation

## Geberit Omega concealed system

# CHOICE IS **IMPORTANT**

**Intelligent functions from Geberit.** If you can start your toilet flush without touching it, if elegant color effects add atmospheric moments to the time you spend in your bathroom, then this means your plumber has installed state-of-the-art Geberit sanitary convenience in your new bathroom. And because durability and reliability are as much a part of Geberit as good design, you will enjoy your selection for years to come.

GEBERIT REMOTE FLUSH

# ENHANCED **ACCESSIBILITY**

→

**VANISHING ACT**

Available in a variety of colors and materials, Geberit cover plates for service openings are designed to blend in. A tile bearing version is available for a look that's practically invisible.

The remote control for effortless flushing can also be installed in an offset position, for example next to the toilet.

**The optimal solution.** In special construction situations, using a remote flush can be the right choice. Perhaps the bathroom layout calls for flush actuation at a different location to increase accessibility. Or maybe the user preference is for a flush control that's as small and elegant as possible. In cases like these, Geberit offers a variety of remote flush options with pneumatic force transmission. All can be placed anywhere within a 5.5 ft. radius of the concealed tank.

←

**TOUCHED A THOUSAND TIMES**

The pneumatics of the Geberit remote flush actuations type 01 and type 10 have been tested for years of stress. The technology is based on air pressure (not on electrical current).

# **TODAY'S TOILETS** ARE MOVING WITH THE TIMES

**Electrical connections now come as standard.** After all, you expect your bathroom to reflect your changing needs as well as the lifestyle trends that the future is likely to bring. In Geberit toilet installation elements, you'll find everything completely prepared for the future – so it can accommodate any changes you want to make in the future, like the touchless Geberit actuator plate Sigma80.
